

RUBBER MOULDING & FABRICATION

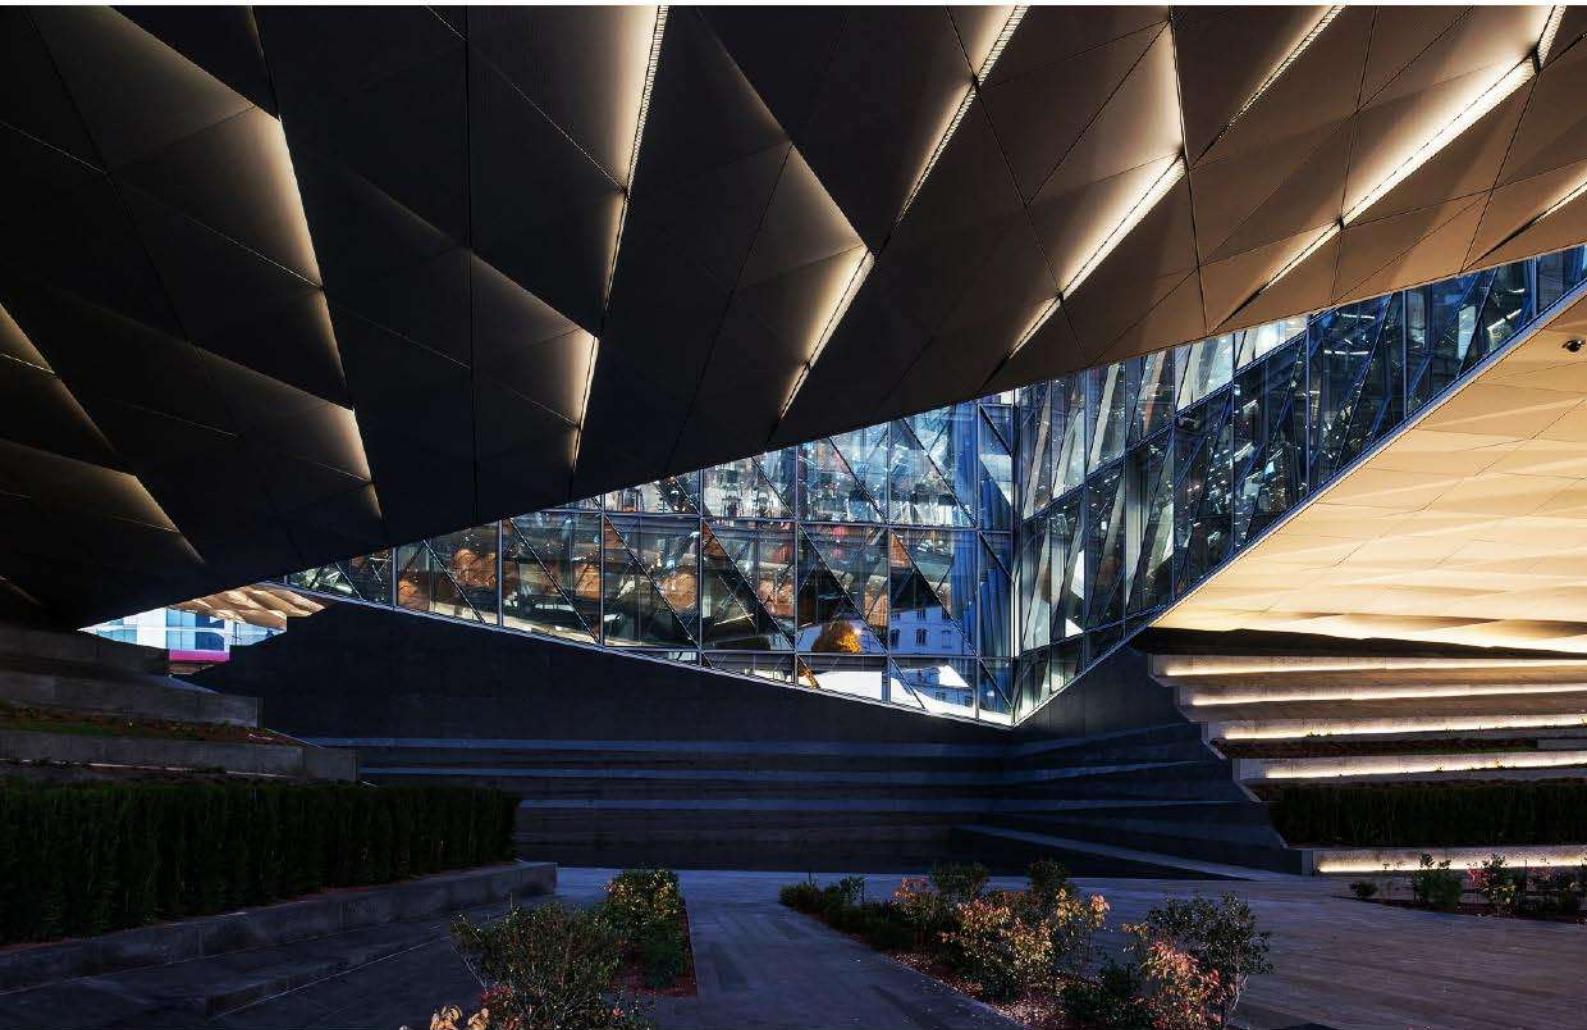

We manufacture and fabricate standard molded parts, custom molded parts and machine fabricated parts. We mold Grommets, Bumpers, Plugs, Stops etc..., within a complete spectrum of elastomers. **GULF EMPIRE** can handle your needs from the concept and drawing stages to prototypes and production runs. We mold in a size range of less than 1/8" to large molded parts. These parts can be produced to standard commercial tolerances or tighter tolerances if required.

STEEL & STAINLESS STEEL FABRICATION

SCOPE OF SUPPLIES

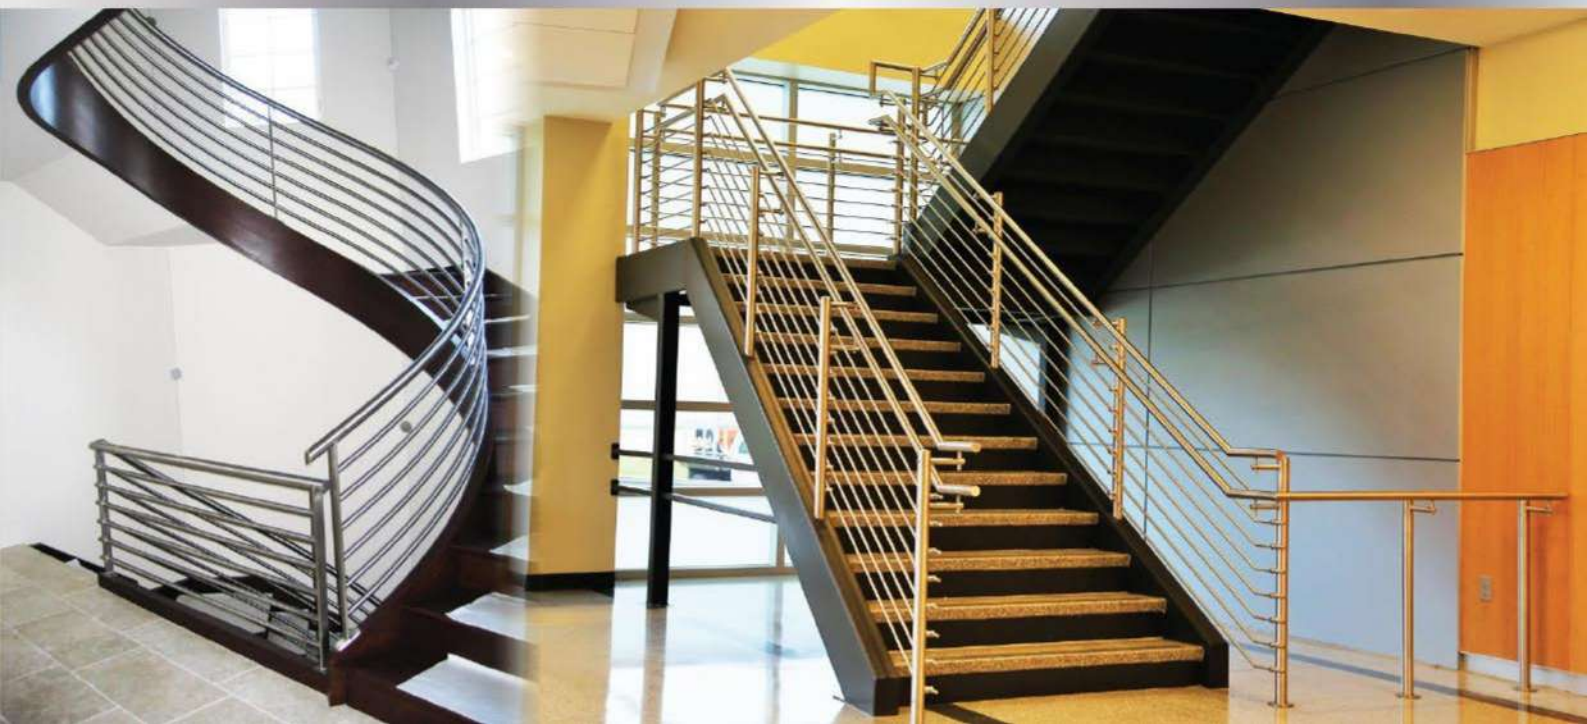

GULF EMPIRE offers a comprehensive range of steel and stainless steel fabrication services, custom stainless steel products and equipment for a diverse range of clients in the commercial and industrial sectors.

Experience has taught us that process quality governs product quality. We apply the principles of total quality management to every project we undertake. The skilled staff of expert fabricators at **Gulf Empire** is learn-minded and dedicated to providing of incomparable quality, reliability and value. Our range of capabilities includes cutting, bending, welding, machining and finishing, handling and logistics.

LATHE MACHINE WORKS

Lathes are used in woodturning, metalworking, metal spinning, thermal spraying, parts reclamation, Acrylic and Lexan. Most suitably equipped metal working lathes can also be used to produce most solids of revolution, plane surfaces and screw threads or helices. Ornamental lathes can produce three-dimensional solids of incredible complexity. The work piece is usually held in place by either one or two centers, at least one of which can typically be moved horizontally to accommodate varying work piece lengths.
